SKODA TITAN DESERT MOROCCO

The **Titan E-Bike** is a non-competitive adventure designed for electric mountain bikes.

A new way to experience the Titan spirit from the inside — sharing stages of the **Škoda Titan Desert Morocco**, discovering the camps, and riding through unforgettable desert landscapes.

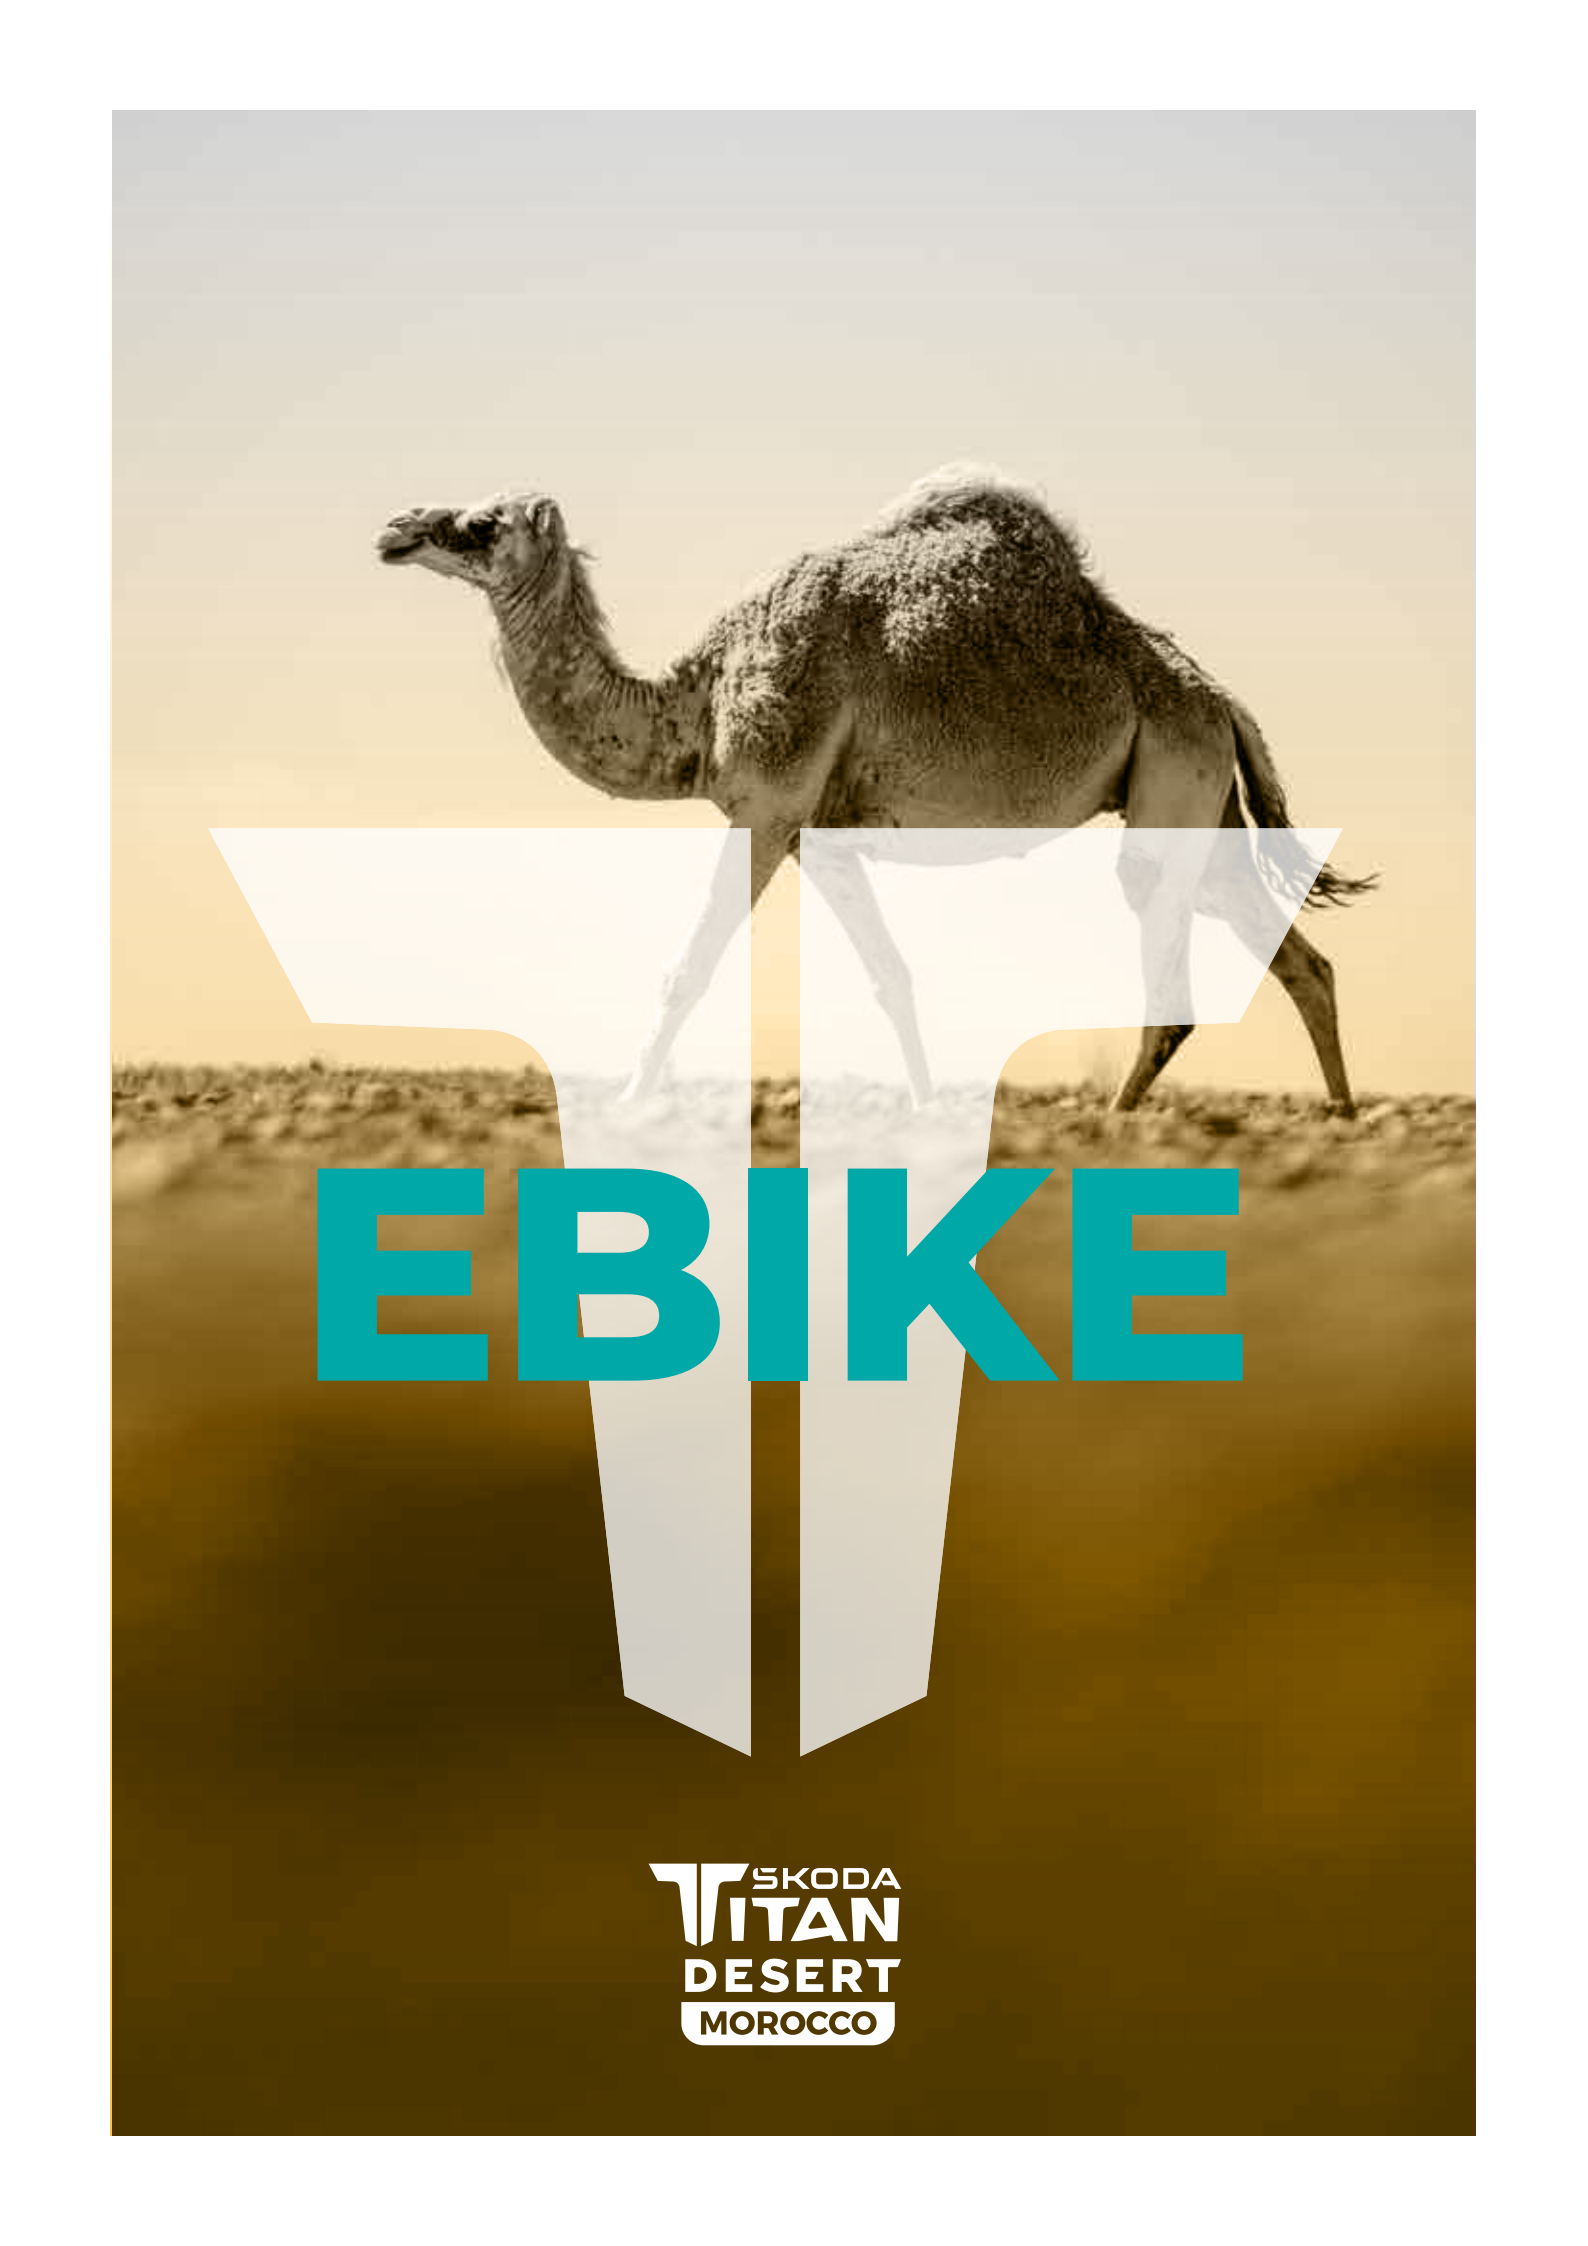

You'll ride your e-bike along sections of the **last three stages** of the Škoda Titan Desert Morocco, while discovering the local culture and living side by side with other Titans.

A journey with every comfort, guided and supported by organization vehicles, and backed by the full **infrastructure and logistics** of the Titan Desert — plus those specific to the E-Bike program.

The Titan E-Bike program opens the door to a **unique, non-competitive adventure** that will challenge you and leave a lasting mark.

FLIGHT TO MOROCCO

TUESDAY, **APRIL 28TH**, 2026

PROLOGUE

After arriving late last night, today is a day to rest, relax, and get to know your fellow adventurers.

We'll start the morning with breakfast at the hotel, followed by a briefing at reception.

Here you'll receive your welcome pack and GPS tracking device, and we'll review all the key details for the upcoming days.

In the afternoon, we'll head out for a short 20-km warm-up ride — the perfect opportunity to loosen the legs, test your gear, and shake off the nerves.

DESCRIPTION STAGE PROFILE DISTANCE: 20 KM

A circular route around the hotel on easy tracks, with small sandy sections and irrigation-canal paths in a nearby oasis.

An ideal introduction to the terrain you'll encounter in the coming days.

WEDNESDAY, **APRIL 29TH** 2026

STAGE 1. RISSANI - MERZOUGA

The adventure begins! After breakfast, a short transfer will take us to the starting point in Rissani.

After the stage, you'll have time to recover and explore the Titan camp before heading to your hotel for a well-earned rest.

In the afternoon, enjoy an exciting buggy driving experience in the dunes, then return for the general race briefing, dinner, and rest.

Tonight: lunch and dinner at the Titan camp, accommodation in hotel.

DESCRIPTION STAGE PROFILE DISTANCE: 78 KM

We'll ride through ancient kasbahs before entering open terrain. After crossing a large chott (dry lakebed), we'll follow rocky desert tracks until the dunes of Erg Chebbi come into view. The final stretch takes us across a wide wadi (dry riverbed), leading straight to the Škoda Titan Desert Morocco camp at Merzouga – the same finish line as the race participants.

THURSDAY, **APRIL 30TH** 2026

STAGE 2. MERZOUGA - MERZOUGA

Today you'll start under the same arch as the Titan riders — just minutes after they begin their stage.

After breakfast, collect your bikes and set off for a loop stage that starts and finishes at the camp.

After the stage, enjoy lunch and free time at the Titan camp to discover every corner of this unique desert village.

Dinner will be held at a special local venue, and accommodation remains in the same hotel as the previous night.

DESCRIPTION STAGE PROFILE **DISTANCE: 75 KM**

The route heads south across dune terrain, requiring focus and navigation. You'll follow your GPS and guides through sandy, winding trails and iconic Titan landmarks.

We'll stop to watch the race riders pass through one of the control points — a true highlight of the day — before looping back north along a scenic ridge with sweeping views of the dunes.

FRIDAY, MAY 1ST 2026

STAGE 3. MERZOUGA - MAADID

The final day of riding — and one you'll never forget.

Today you become a Titan E-Bike finisher.

After the stage, bikes will be handed to our mechanics for disassembly and transport.

We'll enjoy lunch at the hotel and have the afternoon free before attending the official Škoda Titan Desert Morocco 2026 awards ceremony, held in the same venue.

After dinner, transfer to the hotel for the final night.

DESCRIPTION STAGE PROFILE DISTANCE: 62 KM

We'll head north through open desert terrain, crossing a large wadi before entering a rugged mountain area with steady climbs and rocky trails.

After reaching the plateau, the route trends downhill toward Xaluca Maadid Hotel, descending along sandy tracks to meet the official race finish line.

SATURDAY, **MAY 2ND** 2026

RETURN FLIGHT

Early departure to Errachidia airport (transfer at 6:00 a.m.) for the return flight to Barcelona or Madrid (via Casablanca – exact times to be confirmed).

An aerial photograph of a desert camp at night. In the foreground, a large, illuminated white tent with a peaked roof is visible. Inside the tent, many people are gathered, and the interior is lit with warm lights. The tent is surrounded by smaller structures and palm trees. In the background, a city with various buildings and lights is visible, set against a dark desert landscape with mountains in the distance.

Program price

€1,795 – first 20 participants.

€1,855 – standard price.

FAQS

WHEN DOES THE TITAN E-BIKE PROGRAM TAKE PLACE?

From April 27th to May 2nd, 2026 (6 days total).

HOW DO I TRAVEL TO MOROCCO?

Your registration includes round-trip flights from Barcelona or Madrid, possibly with one stopover.

All participants must hold a passport valid for at least 6 months after the event.

HOW IS MY E-BIKE TRANSPORTED TO MOROCCO?

Your bike will travel in the same convoy as the Titan Desert race participants.

It must be delivered, packed, to the RPM Sports warehouse in Barcelona approximately 20 days before the event.

The organization will handle transport to and from Morocco.

CAN I CHARGE MY E-BIKE BATTERY AT THE CAMP?

Yes — there will be a dedicated, staff-supervised charging area for e-bikes in the camp.

SHOULD I BRING A SPARE BATTERY?

Not mandatory, but you may bring one if you wish.

WHERE DO WE SLEEP?

All nights are spent in 4-star or higher hotels, double rooms.

Single supplement: +€250 (subject to availability).

FAQS

DOES THE TITAN E-BIKE APPEAR IN THE ŠKODA TITAN DESERT MOROCCO GENERAL CLASSIFICATION?

No. This is a non-competitive experience — there are no rankings.

HOW MANY KILOMETERS DO WE RIDE EACH DAY?

Between 20 and 70 km per day, depending on the route confirmation.

DO I NEED TO BRING A GPS?

Yes, mandatory. The organization will provide the tracks to load into your device.

Tracks may vary according to the guide's decisions.

Each participant will also receive a real-time tracking device monitored by the race's PC Course control system.

DO I NEED TO CARRY WATER?

Yes. Each rider must start with at least 1.5 liters of water, provided by the organization at the start.

Participants are self-sufficient regarding food and nutrition during stages.

IS THERE ASSISTANCE DURING THE STAGES?

Yes — a 4x4 assistance vehicle will follow the group, with staff ready to help if needed.
